

## **Vision :**

My sister and sibling BBGs, for 100 years BBYO has informed, united and inspired jewish teens around the world. GMR has been thriving going on 23 years. This is an idea that I want to implement into my work as mazirkah. These three pillars are what keeps BBYO such a special organization.

**Social media** has been our main use of communication for so long that sometimes members oversee and ignore important information. I plan to create meaningful and engaging posts so that important information is not ignored. Sharing GMR through photos on social media shows the power of our community.

Along with this I plan to have very open **communication** with my counterparts and check in with them frequently. Along with this I also want to bring back prescorps. Prescorps give GMR teens a chance to be involved and show their love for our family.

**Globalization** is more important than ever right now. I want to encourage chapters to continue doing programs together; but even extend past GMR to international order. Pen pals are such a great way to meet Jewish teens just like YOU !

If elected your 23rd Mazkirah I want to make inspiring, uniting and informing my main priority by connecting jewish teens on a deeper level and fostering the BBG passion. Once a family, always a family. It's important to have people in your life you can always rely on. I found my people and I hope GMR teens find theirs.
