

*My wish for the Great Midwest Region is that we forever stay connected. GMR, now more than ever it is key to stay together as one Jewish community. We have the power to influence and make changes not only where we live, but globally. My objective for this upcoming term is to make sure all teens are informed in new and creative ways. To accomplish this I plan to use all social media to enlighten our community. With that being said, our order can't successfully fulfill its potential without strong communication. I intend to use GroupMe and other communication outlets to reach out and include everyone in updates. Additionally, creating a functioning press corps to create content and journalism is key to allowing for more leadership opportunities and participation throughout our region. I want to help teens understand that they have a voice. They have the power to make a change globally even if it starts small. This change will happen when I can inform members of global Jewish movements taking place and making a change. Not only this but traditions and holidays happening all over the world. If elected as your Mazkirah my main goal would be to bring together our region in new ways that truly show pride in what it means to be Jewish.*
